

2010 LIGHTING INCENTIVE PROGRAM APPLICATION

Instruction for Use:

- Step 1:** **Determine Eligibility:** Equipment must be installed at facilities served by the Coldwater Board of Public Utilities. Projects must result in an improvement in energy efficiency. Equipment must meet the specifications as explained in this application.
- Step 2:** **Pre-Approval Application:** E-mail, mail or fax a completed copy of the application, including the Incentive Application Checklist. Pre-approval is required for all projects. Please provide all required documentation including:
- An itemized quote with intended manufacturer equipment model/part number.
 - Manufacturer specification sheets for all equipment.
- Step 3:** **Install Equipment:** New equipment must be installed and old equipment removed. Only new products which are exact product types listed in the attached worksheet are eligible for prescriptive incentives.
- Step 4:** **Project Completion:** E-mail, mail or fax a signed and complete copy of the application and all required documentation including installed equipment specifications, itemized invoices and final calculation of energy savings. Calculate the total incentive per the attached worksheet. Forms must be received within 30 days of installation.

Return completed application and required materials to (choose a method):

Mail to:

Coldwater Board of Public Utilities
Energy Optimization Program
1 Grand Street
Coldwater, MI 49036

Email scanned copies to:

EOProgram@coldwater.org

Fax to: (517) 278-2947

For more detailed instructions, please refer to the Terms and Conditions included with this application. Please call (517) 279-9531 for questions about the application and/or pre-approval before installation.

for Lighting Energy Efficiency Incentives

2010 FINAL APPLICATION AGREEMENT

As an eligible Coldwater Board of Public Utilities Customer, I certify the indicated energy efficiency measures were installed in 2010. The energy optimization measures are installed in a qualifying facility and not for resale and meet the items as listed in the energy optimization program Terms and Conditions. Incentive payment will be based upon the Final Application meeting the program Terms and Conditions. I have read and understand the program requirement and measure specification and program guidelines set forth in this application and the program Terms and Conditions and agree to abide by these requirements. Furthermore, I concur that I must meet all eligibly criteria in order to be paid under this program and not receive incentives from any other utility for the same project.

I certify that the information on this application is true and accurate. By submitting this application, I authorize the Coldwater Board of Public Utilities and its consultants to utilize my account information and project data. I understand that this information is confidential and will only be used to evaluate my application for compliance with the program.

				Total Lighting Incentive	

Coldwater Board of Public Utilities

Commercial & Industrial Prescriptive Application for Lighting Energy Efficiency Incentives

Terms and Conditions

1. **Incentive Offer:** Projects must be implemented (completed) by December 31, 2010. An original signed application and invoices for materials and labor must be delivered to CBPU Energy Optimization Program, 1 Grand Street, Coldwater, MI 49036, emailed to EOprogram@coldwater.org, or faxed to (517) 278-2947 **within 30 calendar days of installation (completion)**. Please keep a copy for your records.
2. **Proof of Purchase:** This application must have complete information and be submitted with 1) an invoice itemizing the new equipment purchased and 2) the manufacturer (OEM) specification sheets. The invoice must indicate date of purchase, size, type, make, model and total project cost.
3. **Energy Savings:** Projects must result in reduced electric energy use due to improvement in the system efficiency; control upgrades may also qualify. Reduced electric use resulting from peak shaving, demand limiting, fuel switching, power generation, renewable energy, or operating schedule changes does not qualify. To qualify lighting, the lighting must be used a minimum of 1,800 hours per year.
4. **Compliance:**
 - a. All projects must comply with applicable federal, state, and local laws.
 - b. All equipment must be new or retrofitted with new components per the program specifications. Used or rebuilt equipment is not eligible for incentives. Existing equipment must be removed or permanently disconnected.
 - c. Equipment must meet specification requirements and be purchased and operating prior to submitting an incentive application.
 - d. Only one incentive will be granted for each project.
 - e. All projects must be retrofit/replacement installation in an existing building (not available for new construction).
 - f. If the project is in a leased building, the term of the lease must be at least five (5) years.
5. **Payment:** Once completed paperwork is submitted, incentive payments are usually made within 30 calendar days. Incomplete applications will either delay payments or result in denial of application approval. The Coldwater Board of Public Utilities reserves the right to refuse payment and participation if the customer or contractor violates program terms and conditions. All projects exceeding \$2,000 of incentives will be inspected prior to incentive payment. The Coldwater Board of Public Utilities must receive 100% of the energy savings for the rated life of the product(s) or for a period of three (3) years from the receipt of rebate, whichever is less. If you do not provide the energy savings, if the facility in which the installed projects are located closes or ceases operation within the three (3) years, you shall refund a prorated amount of dollars based on the time installed.
6. **Inspection:** Program staff may conduct an inspection of the facility to survey installed projects.
7. **Publicity:** The Coldwater Board of Public Utilities reserves the right to publicize your participation in this program, unless you specifically request otherwise.
8. **Program Discretion:** Program funds are limited. Incentives are available on a first-come, first-served basis. Incentive amounts and offerings are subject to change or termination without notice at the discretion of the Coldwater Board of Public Utilities.
9. **Logo Use:** Customers or allies may not use the Coldwater Board of Public Utilities name or logo in any marketing, advertising, or promotional material without written permission.
10. **Disclaimers:** The Coldwater Board of Public Utilities:
 - a. Does not endorse any particular manufacturer, product, labor or system design by offering these programs;
 - b. Will not be responsible for any tax liability imposed on the customer as a result of the payment of incentives;
 - c. Does not expressly or implicitly warrant the performance of installed equipment or contract's quality of work (contact your contractor for detailed warranties);
 - d. Is not responsible for the proper disposal/recycling of any waste generated as a result of this project;
 - e. Is not liable for any damage caused by the installation of the equipment or for any damage caused by the malfunction of the installed equipment.

INCENTIVE LIMIT:

All incentive projects must receive written approval BEFORE project installation. Incentives for measures can be up to the purchase price of a specific measure but shall not exceed the incentives set by the Coldwater Board of Public Utilities for each measure.

ELIGIBILITY:

These incentives are offered by the Coldwater Board of Public Utilities to electric customers only; water, wastewater, and telecommunication customers are not eligible. For questions regarding eligibility, call (517) 279-9531.
