DISPOSABLE DOES NOT MEAN FLUSHABLE. Disposable items should always be thrown away in the trash. They can get hung up in the pipes taking years to disintegrate causing problems. Help prevent blockages in the sewer infrastructure by keeping the following items out of our sewers:

- Grease
- Cigarette butts
- Prescription drugs
- Dental floss
- Paper towels
- Cleaning or baby wipes
- Paper or plastic bags
- Cloth towels or rags
- Hygiene products
- Bandages
