FOR IMMEDIATE RELEASE

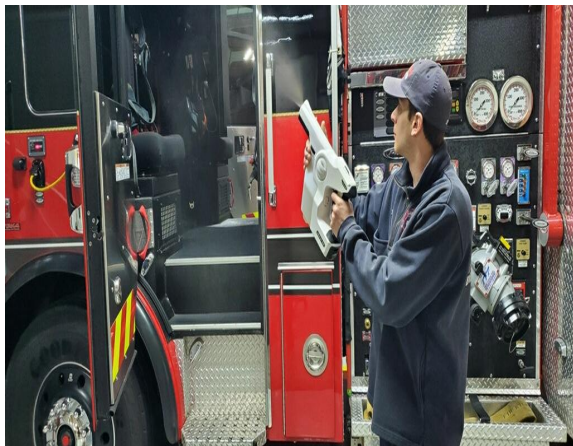

April 5, 2020

# PRESS RELEASE

## Branch County Government Vehicles Sanitized Against COVID-19

Coldwater and Quincy Fire vehicles, road commission vehicles, and police and sheriff vehicles were sanitized for added protection against COVID-19. The product is applied using electrostatics, ensuring coverage in hard to reach areas. This is not a replacement for standard cleaning, but an enhanced level of prevention that was applied after cleaning. It is a disinfectant that kills the virus on contact and then disappears. It is applied by the spray gun pictured.

Enjoy the nice weather while keeping the appropriate distance.
